- (b) It shall be unlawful for any person who is engaged in the business of selling beer or wine to sell the same where the place of business of any person or entity is within:
  - (1) 300 feet of a church, public or private school, or public hospital;

- (d) Every applicant for an original alcoholic beverage license or permit for a location with a door by which the public may enter the place of business of the applicant that is within 1,000 feet of the nearest property line of a public or private school, measured along street lines and directly across intersections, must give written notice of the application to officials of the public or private school

No variance may be granted hereunder except after a public hearing for which notice has been given to owners of real property within 300 feet of the location of said variance seeking a permit. Such notice must be provided, not less than ten days before the date set for hearing, to all such owners who have rendered said property for city taxes as the ownership appears on the last approved city tax roll.

Such person shall also provide a statement of his name, current address, addresses for the previous ten years, age, and all other city permits or licenses held in his name along with the names and addresses of all persons with an interest in such business, which statement shall include an affidavit that the information given is true and correct. The applicant shall further give authorization for his fingerprints, height, weight, coloring and other description to be obtained by the police department.
- (b) Investigation of applicant. The city secretary shall direct such information to the chief of police of the city, who shall cause an investigation to be made as to the applicant's reputation as well as those of his business associates and also as to the applicant's criminal record, if any. Upon completion of such investigation, the chief of police of the city shall forward such information together with his investigative findings to the official with primary responsibility for enforcing the zoning laws of the city. Such person shall determine the zoning district in which such business is located, the distance to the nearest church, public school and public hospital and any deficiency in the building proposed or planned for use. He shall forward his findings, together with all material received from the chief of police of the city, to the city attorney.

No variance may be granted hereunder except after a public hearing for which notice has been given to owners of real property within 300 feet of the location of said business seeking a variance. Such notice must be given not less than ten days before the date set for hearing, to all such owners who have rendered said property for city roll taxes as the ownership appears on the last approved city tax roll.
